Mathieu Rousseau

**LIGHTING DESIGNER
AND TECHNICAL DIRECTOR**

With over 20 years of expertise as a technical director, lighting designer and expert in architectural lighting systems, Mathieu Rousseau has developed an expertise in the world of corporate events.

His unique approach and vast knowledge have led him to be involved in the development and management of many unique events around the world, such as the C2 International as technical director.

More locally, he has developed creative projects such as Aurora Borealis and many others, as well as architectural enhancement projects such as the Complexe Desjardins in Montreal; a real success!
